SKILLS

Languages: C++, Python, C, Java
Tools/Platforms: MongoDB, Linux
Soft Skills: Teamwork & Collaboration, Problem-Solving, Adaptability

PROJECTS

Smart Recruitment Portal | *MERN Stack, React, Node.js, MongoDB* May' 26

- Developed an enterprise-grade recruitment portal with automated resume parsing and rule-based AI candidate shortlisting based on skills, experience, education, and keyword matching.
- Implemented dedicated dashboards for recruiters, candidates, and administrators with job posting, application tracking, interview scheduling, suitability evaluation, and CSV export capabilities.
- Integrated JWT authentication, Redux Toolkit, PDF resume processing, email notifications, and analytics dashboards to streamline the end-to-end recruitment workflow.

LegalBot India | *Node.js, Express.js, Google Gemini, JavaScript* Apr' 26

- Developed a Generative AI chatbot focused on Indian laws and women's safety, providing accessible legal awareness in simple Hinglish through text and voice interaction.
- Implemented emergency helpline detection, location-aware assistance, contextual chat memory, and domain-scoped responses to help women quickly understand their rights and access relevant safety resources.
- Integrated Speech-to-Text and Text-to-Speech using the Web Speech API, enabling hands-free interaction and real-time support for users seeking legal and safety information.

Lessons Learned Management System | *JavaScript, Node.js, Express, MongoDB* Jun' 25

- Developed a full-stack knowledge management platform for documenting project insights and learning resources with AI-powered recommendations.
- Implemented JWT authentication, role-based access control, CRUD operations, search/filtering, bookmarks, notifications, data export, and admin management.
- Engineered an AI similarity engine based on project type, technologies, and tags to recommend relevant lessons, improving knowledge discovery and reuse.

TRAINING

MERN Stack Development with Artificial Intelligence | *Centre for Professional Enhancement | LPU* Jun' 26 – Jul' 26

- Developed web applications using JavaScript and backend technologies, implementing RESTful APIs, server-side routing, middleware, and database integration.
- Worked with Node.js, Express.js, and MongoDB to build scalable backend services and implement core application features and authentication.
- Gained practical experience in full-stack development and AI-enabled application workflows through hands-on project-based training.

CERTIFICATES

MERN Stack with AI | *Centre for Professional Enhancement, LPU* Jul' 26
Database Management System | *Infosys* Jul' 26
Introduction to AI & ML | *Skillera* Mar' 25
Ethical Hacking | *Rising Tech Pro* Jan' 25

EDUCATION

Lovely Professional University Phagwara, Punjab
Bachelor of Technology Aug' 24 – Present
Computer Science and Engineering; CGPA: 6.99

Hellens Public School Sitamarhi, Bihar
Intermediate Mar' 23 – May' 24
Percentage: 69.9%

S.R.D.A.V Public School Sitamarhi, Bihar
Matriculation Mar' 21 – May' 22
Percentage: 77.9%
